

# Love Blinds & Awnings

## Beautiful Window Furnishings

## Roller Blinds

A roller blind is probably the most, popular of blind types today, because it works in almost any application or window giving you a modern and clean finish everytime. Fabric options are almost endless allowing you to create a look to suit any interior.

### BLOCKOUT ROLLER BLINDS:

A Blockout Blind should block 99% of light and will also offer complete privacy blocking anyone outside from seeing inside. Blockout blinds also offer an element of insulation blocking heat in summer and holding it in in winter. Generally preferred for use in bedrooms and those windows where privacy and light control are the concerning factors.

Due to the popularity of blackout fabrics, there is a great variety on the market with various finishes, textures and colours to suit every interior and budget, from basic painted blockouts through to beautiful woven jacquards and alike.

A roller blind is probably the most, popular of blind types today, because it works in almost any application or window giving you a modern and clean finish everytime. Fabric options are almost endless allowing you to create a look to suit any interior.

### BLOCKOUT ROLLER BLINDS:

A Blockout Blind should block 99% of light and will also offer complete privacy blocking anyone outside from seeing inside. Blockout blinds also offer an element of insulation blocking heat in summer and holding it in in winter. Generally preferred for use in bedrooms and those windows where privacy and light control are the concerning factors.

Due to the popularity of blackout fabrics, there is a great variety on the market with various finishes, textures and colours to suit every interior and budget, from basic painted blockouts through to beautiful woven jacquards and alike.

### SUNSCREEN ROLLER BLINDS:

A sunscreen Roller blinds is made of a woven, mesh like fabric that helps to block heat and glare caused by sunlight, whilst still maintaining your view and natural light, so they shouldn't darken your room or interrupt your view when drawn. Sunscreens however, do not offer any degree of privacy at all and as such are not recommended to be used alone in bedrooms or bathrooms or living areas where privacy might be required. In these situations, where a sunscreen is required you may wish to implement a dual blind, where both a blackout blind and sunscreen blind are installed together on a double bracket system.

### TRANSLUSCENT ROLLER BLINDS:

Giving a much softer feel to a room than a complete blackout a translucent is great for layering and adding texture to your room.

Translucent Roller blinds will block a lot of your heat and glare and whilst not completely opaque they will offer you privacy.
